

1010

BAND STORY

"1010 was formed in late 2005 by four friends who enjoy music without limits. The band's eclectic influences gives them a strong, melodic, and soulful sound that complements the spiritual message in their lyrics. This band is focused on delivering real and emotional energy from their music, and not concerned so much with image. Their live performances project a high, fun-filled energy with all musical elements conjured up in every song."
