

Mower

BAND STORY

"Mower is an explosive live act launched from San Diego, California with a reputation for heavy music, inciting lyrics and insane stage performances. Featuring dual vocalists Dominic Moscatello and Brian Sheerin, this driving five-piece detonates live with bassist Chris McCredie and drummer Ryan Toth providing a rumbling rhythm section complimented by the chunk and shredding of guitarist Matt Wannamaker. Early shows with GWAR, hed(pe), System of a Down, Fear and a Vans Warped Tour date raised eyebrows in the music industry and the band released their self titled debut on Suburban Noize Records. Mower's momentum is growing steadily and the list of prominent acts Mower has performed alongside has grown with it. Mower is a veteran of shows with Metallica, Slayer, Deftones, Linkin Park, P.O.D., Staind and more. Tours with Soulfly, Phunk Junkeez and Adema have helped build Mowers fan base across the United States. The release of the Mower CD in Japan has given the band a taste of international success, and arena shows with Disturbed and Kottonmouth Kings have allowed Mower to hone their skills in front of large audiences. Mowers music has been added to specialty radio playlists and is making its way into movies, television and videos. Movies: Black Cloud (feat. Rick Schroeder and Tim McGraw), Zalman Kings Sex, Y & Z. Television: Fox Televisions 54321, Blue Torch TV, Fuel TV, and an ESPN Motocross Segment. Video: XYZ Skates Decade of Destruction (feat. Steve O), Red Bull Rampage 3 Motocross Video, Transworld Surf Video 7873, 411 Video Magazine (Surf and Snow editions), and Savren's, Tomcat's, Motocross series.
